## PROJECTS

### Property-listing

September - 2025

**Technologies used :** React, React Router, TanStack Query, Tailwind CSS, Context API.

Built a responsive property-listing platform enabling users to browse, filter, and view detailed listing information with image galleries. Implemented modular UI components, API data fetching, and optimized state management.

### Wordle Game

June - 2025

**Technologies used :** HTML, CSS, JavaScript, React , React Hooks

Developed a Wordle-style game in React with useState, featuring six attempts, input validation, and feedback tiles for an interactive UI.

## EDUCATION

**Bachelor of Engineering - Computer Science Engineering**

June - 2025

VSA Group of Institutions, Salem.
